STEELFAB, INC.
STRUCTURAL STEEL FABRICATORS

Who We Are.

STEELFAB, INC. is an AISC Certified Fabricator of structural steel and miscellaneous metals, located in Kankakee, IL. Since 1995, we have been providing complete division 5 steel projects. Including but not limited to structural steel, joists and girders, floor and roof deck, as well as miscellaneous metals. We handle structural steel detailing in house and we have two fully automated beam lines along well over 400' of conveying and transfer equipment. Our 40,000 sqft facility is equipped with 5 and 10 ton overhead bridge cranes along with two large-capacity cold saws, angle lines, plate shear and punch tables.

STEELFAB, Inc has a rich 25-year history and an excellent reputation in the steel industry with a capacity of well over 5,000 tons a year.

Centrally located in Illinois, STEELFAB, INC. has provided fabrication for various retail, industrial, commercial, institutional, manufacturing and warehousing buildings in many states across the country. STEELFAB, INC. is a family owned enterprise that specializes in complete project supervision and communication with the expert support of our estimating, fabrication and project management departments, from beginning to end of each project.

STEELFAB, INC.

STRUCTURAL STEEL FABRICATORS

What We Do.
